STAT

Dear [redacted]

STAT

Enclosure 1 is a tentative proposal for the test grid that [redacted] indicated he needed for test purposes. To date, no other company either in the U.S. or abroad has the capability to produce a grid of this size.

STAT

Please give the proposal to [redacted] if he still desires such a grid.

STAT

Here is hoping that spring has finally hit [redacted] and that everything is well with you.

STAT

Sincerely,

STAT
